

SR#	Test Scenario	Test Cases	Test Steps	Test Data	Expected Result	Actual Result	Retesting v2	Pass/Fail
EC1	Check Customer ID	Check response on blank field	1) Do not enter data in Customer ID / 2) Press TAB and move to next Field		Error message "Customer ID is required" should be shown	Error message "Customer ID is required" is shown		Pass
EC2		Check response on entering special character on CUSTOMER ID field	1) Enter special character in Customer ID	1234#\$	Error message "Special characters not allowed" should be shown	Error message "Special characters are not allowed" is shown		Pass
EC3		Check response on entering character on CUSTOMER ID field	1) Enter character in Customer ID	1234abc	Error message "Characters not allowed" should be shown	No message shown	Error message "Characters are not allowed" is shown	Pass
EC4		Check response on entering valid CUSTOMER ID	1) Enter valid customer ID / 2) Press submit	1234	Edit Customer successful	could not connect Access denied for user 'root'@'localhost' (using password: NO)	Edit Customer successful	Pass
EC5	Check Name field	Check response on entering alphanumeric data on NAME field	1) Enter alphanumeric data NAME field	Jane2022	Error message "Numbers are not allowed" should be shown	Cannot be executed due to connection issue	Error message "Numbers are not allowed" is shown	Pass
EC6		Check response on entering special characters on NAME field	1) Enter special characters in NAME field	Jane!#\$	Error message "Special characters not allowed" should be shown	Cannot be executed due to connection issue	Error message "Special characters are not allowed" is shown	Pass
EC7		Check response on blank field	1) Do not enter data in Customer Name / 2) Press TAB and move to next Field		Error message "You must enter a Customer Name" should be shown	Cannot be executed due to connection issue	Error message "Customer Name must not be blank" is shown	Pass
EC8		Check response on leaving a space before NAME field	1) Leave space before NAME field	Jane	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
EC9	Check Address field	Check response on blank field	1) Do not enter data in Address / 2) Press TAB and move to next Field		Error message "You must enter a valid Address" should be shown	Cannot be executed due to connection issue	Error message "Address field must not be blank" is shown	Pass
EC10		Check response on leaving a space before ADDRESS field	1) Leave space before Address	Doctor Palomo between 10 and 14	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
EC11		Check response on entering special characters on ADDRESS field	1) Enter special characters in ADDRESS field	Doctor Palomo %10 and 14	Error message "Special characters are not allowed" should be shown	Cannot be executed due to connection issue	Error message "Special characters are not allowed" is shown	Pass

EC12	Check City field	Check response on entering special characters on CITY field	1) Enter special characters in CITY field	Coin#	Error message "Special characters are not allowed" should be shown	Cannot be executed due to connection issue	Error message "Special characters are not allowed" is shown	Pass
EC13		Check response on blank field	1) Do not enter data in CITY field / 2) Press TAB and move to next Field		Error message "You must enter a valid City"	Cannot be executed due to connection issue	Error message "City field must not be blank" is shown	Pass
EC14		Check response on entering numbers on CITY field	1) Enter numbers in CITY field	Coin1	Error message "Numbers are not allowed"	Cannot be executed due to connection issue	Error message "Numbers are not allowed" is shown	Pass
EC15		Check response on leaving a space before City	1) Leave space before City	Coin	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
EC16	Check State field	Check response on entering numbers on STATE field	1) Enter State with numbers	Spain1	Error message "Numbers are not allowed"	Cannot be executed due to connection issue	Error message "Numbers are not allowed" is shown	Pass
EC17		Check response on blank field	1) Do not enter data in STATE / 2) Press TAB and move to next Field		Error message "You must enter a valid State"	Cannot be executed due to connection issue	Error message "State field must not be blank" is shown	Pass
EC18		Check response on entering special characters on STATE field	1) Enter State with special characters	Spain)	Error message "Special characters are not allowed" should be shown	Cannot be executed due to connection issue	Error message "Special characters are not allowed" is shown	Pass
EC19		Check response on leaving a space before State	1) Leave space before State	Spain	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
EC20	Check PIN field	Check response on entering characters on PIN field	1) Enter PIN with characters	12345e	Error message "Enter only numbers"	Cannot be executed due to connection issue	Error message "Characters are not allowed" is shown	Pass
EC21		Check response on blank field	1) Do not enter any data / 2) Press TAB and move to next Field	-	Error message "You must enter PIN"	Cannot be executed due to connection issue	Error message "PIN must not be empty"	Pass
EC22		Check response on entering special characters on PIN field	1) Enter PIN with special characters	12345#	Error message "Invalid PIN-only numbers"	Cannot be executed due to connection issue	Error message "Characters are not allowed" is shown	Pass
EC23		Check response on entering invalid PIN	1) Enter more than 6 numbers in PIN field	1234567	Error message "Invalid PIN-only 6 numbers"	Cannot be executed due to connection issue	Error message "PIN can only have 6 digits" is shown	Pass

			2) Enter less than 6 numbers in PIN field	123	Error message "Invalid PIN-only 6 numbers"	Cannot be executed due to connection issue	Error message "PIN can only have 6 digits" is shown	Pass
EC24		Check response on leaving a space before PIN	1) Leave space before PIN	123456	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
EC25	Check telephone field	Check response on blank field	1) Do not enter any data / 2) Press TAB and move to next Field		Error message "You must enter telephone number"	Cannot be executed due to connection issue	Error message "Telephone must not be empty" is shown	Pass
EC26		Check response on entering special characters on TELEPHONE field	1) Enter special characters in TELEPHONE field	#603685947	Error message "Special characters are not allowed" should be shown	Cannot be executed due to connection issue	Error message "Special characters are not allowed" is shown	Pass
EC27		Check response on entering characters on TELEPHONE field	1) Enter characters in TELEPHONE field	T603685947	Error message "Characters are not allowed" should be shown	Cannot be executed due to connection issue	Error message "Characters are not allowed" is shown	Pass
EC28		Check response on leaving a space before telephone	1) Leave space before telephone	603685947	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
EC29	Check email field	Check response on blank field	1) Do not enter any data / 2) Press TAB and move to next Field		Error message "You must enter Email"	Cannot be executed due to connection issue	Error message "Email field must not be blank" is shown	Pass
EC30		Check response on entering invalid email	1) Enter email without @, without .com, etc	yanetcg@gmail yanetcg yanetcg@gmail. yanetcg@gmail.com	Error message "You must enter valid Email"	Cannot be executed due to connection issue	Error message "Email ID is not valid" is shown	Pass
EC31		Check response on leaving a space before email	1) Leave space before email address	yanetcg@gmail.com	Error message "First character can not have space" should be shown	Cannot be executed due to connection issue	Error message "First character can not have space" is shown	Pass
